How Do I Connect?

WiFi sponsored by: COVINGTON

- 1. Select GWconnect from your available SSID network list.
- 2. If prompted for cppm.it.gwu.edu, accept or trust the certificate. Note: Thecertificate will display as "Not Trusted" because it's a GWU-generated local certificate, only valid for GW resources.
- 3. Open browser to be directed to the GWConnect Splash Page.
- 4. If not redirected, navigate to my.gwu.edu to trigger re-direction.
- 5. On the Splash Page, Click the link in the sentence, "If you are a guest of the university click here to request or reset credentials"
- 6. Fill in the form and accept the GW wireless terms of use.
- 7. Click Register.
- 8. You will receive your username and password per email and/or text message.
- 9. Click Login.
- 10. Enter username and password provided to you.
- 11. You will have network access for 72 hours.

Welcome

The Privacy + Security Forum brings together seasoned thought leaders in privacy and security. Despite extensive media coverage about privacy and security, there's far less knowledge about how real businesses are applying the evolving changes they face every day. This event is about the impact of these topics in the real world. We are excited you can join us!

Our distinguished speakers and audience are from Beijing, Berlin, Brussels, Dubai, Dublin, London, Mexico City, Montreal, Paris, Seoul, Tokyo, Zürich – and, of course, from across the U.S. Connect with privacy professionals, security professionals, chief information officers, attorneys, academics, experts from NGOs & think tanks, technologists, policymakers, and everyone else with strong ties to the privacy and security community.

Building on the success of past events, we have added a pre-conference Cybersecurity Risk Summit this year for practitioners who want to learn in detail about GDPR, privacy and security in Europe, Latin America, Asia, and around the world. We look forward to networking with 800+leading minds expected.

Thank you for helping to shape privacy and security in the real world!
